THE OBJECTIVES OF THE CHIRAN FOUNDATION ARE :

The continuing training of staff to take account of developments in hospital techniques and medical specialities.

Quality of care and the competence and expertise of the healthcare teams.

The humanisation of patient-caregiver relations during hospitalisation.

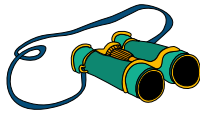

Enhancing the image of the profession and developing the loyalty of nurses within CHIREC.

Together, let's take up the challenge.

Our desire is to help our patients have the best possible experience of their stay in our hospital by giving priority to "welcome, competence and empathy".

It is therefore very important that our healthcare teams have access to continuing training in the target areas.

This has led to the founding of CHIRAN Foundation, 'Action for nursing', making it possible for you to contribute to the realisation of our objectives.

A GLIMPSE OF OUR TRAININGS

- Reception of patients and their relatives
- Humanizing care
- To offer a relationship mode and patient-friendly care
- To assertively communicate is to assert one's rights, to express oneself in a serene, constructive way and to give one's opinion without aggressiveness.
